## *Heritage*

Heritage is our family business' richest asset. Bridges was founded in 2000 because of a mother's love for her son. Through experiencing the same struggles that all of the families we serve endure, we have focused our business model back to the family. Our agency holds a fundamental understanding of what each individual family member undergoes, and our service delivery model reflects our experience. From the first meeting with our Team, every person is treated like our founder would want her son to be treated.

Our team commits resources to assist each family through the complex network of state service requirements. By taking the time to meet face-to-face in order to help each family understand the convoluted nature of Home and Community Based Waiver Services, we find better satisfaction and peace of mind for the individuals that we serve. This basic element drives the values and practices which Bridges holds dear as a company serving our communities.

Bridges of Kentucky's mission and philosophy are reflected within the services and support our team provides for individuals with physical and intellectual disabilities.
